Business Description

Ceramic tile is one of the most common building materials used as an excellent coating in residential, commercial, hospital, laboratory, etc. Due to low water and moisture absorption, these types of products have high durability. High-quality and the best ceramic tiles are made of clay and kaolin, and most of them have a glaze coating layer creating waterproof and scratch-resistant properties.

In general, 25 countries in the world are recognized as the main producers of ceramic tiles. China ranks first in the production of ceramic tiles with 5187 million square meters and almost 41% of production all over the world. Furthermore, India and Brazil are rank next producing 1266 and 9090 million square meters, respectively. It should be pointed out that Afsoon ceramic tiles are highly well-known and popular in the Middle East. Afsoon Trading Company, due to its high production capacity, exports its products to Syria, Iraq, Pakistan, Germany, Afghanistan, Norway, Sweden, and other countries.
